MODEL R4P4EXS/A

4T (9000 LBS) FOUR POST LIFT 'S' SERVICE/'A' ALIGNMENT

- 4000kg (9000 LBS) lifting capacity
- Electrical release, just press UP and DOWN button to control the lift
- Reliable electrical release for easy and efficient use
- 630mm platforms width
- Avoid rapid descending cause by leakage of hydraulic system by applying FLOW-CONTROL technique to hydraulic system
- Max height switch limits the travel of runways and ensures cylinders work within the stroke
- Protect against pinching and shearing using alarming buzzer in descending process
- 24V safety control voltage
- Heavy Duty Aluminum Wheel Alignment Turn Plates
- Compact quick plug electrical connection releases installers from too many wires and terminals and make initial installation much more efficient. Save more than 70% time on wire connection
- Passed 120% dynamic loading test and 150% static loading test
- Comply with CE standards

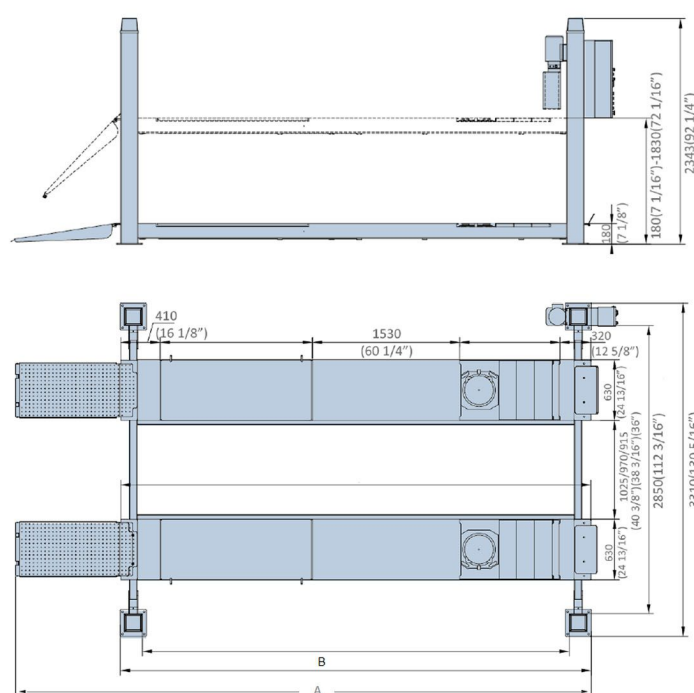

Designed and Engineered
